

# MEMORY © VAULT

## Keep your memories safe.

Unlike fine wine, your film, VHS, and cassettes don't get better with age.

## Find It.

Locate your old film, VHS, cassettes, and photos. While you're at it check with your friends and family to see if you could combine orders for a better price! If you're not sure what all we transfer feel free to check our website at [www.camvideoproductions.com](http://www.camvideoproductions.com) or give us a call at **205-655-0829**.

## Pack It.

Package up your orders with the included paper below. Fill out the top form and insert it into the package with your order. Tape the bottom label to the exterior of the package. We recommend using flat rate boxes for the best price.

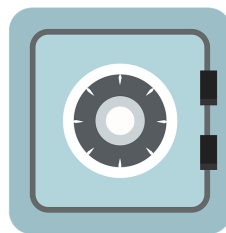

## Ship It.

The professionals at the USPS or UPS stores will make sure your package will arrive safely. It's always a good idea to keep the tracking number. Once your package arrives Cam Video will send you a confirmation email.

## Congratulations!

You now have your items being transferred to a digital format to be viewed for years and years to come!

Please fill in the information and include this customer ID card inside the box you are shipping to Cam Video Productions.
